

NSF ATE: BEAM

Veteran and Female Enrollment Dashboard – August 2020

This dashboard displays the unduplicated headcount of veterans and females enrolled in the Energy Management and Controls Technology degree or one of the related degree programs at the college in spring 2020. The end goal is to increase to **15%** the proportion of **veteran** students and to **25%** the proportion of **female** students who declare a major in these degree programs by the conclusion of BEAM's performance period. The data were compiled by Valencia College's Office of Institutional Research.

Veteran Enrollment	Spring 2020	Project End Goal	% of Goal Achieved
AS: Energy Management and Controls Technology	12%	15%	80%
AS: Computer Information Technology	8.8%	15%	59%
AS: Building Construction Technology	5.6%	15%	37%
AS: Computer Programming and Analysis	5.0%	15%	33%
AS: Electronics Engineering Technology	8.7%	15%	58%
AS: Network Engineering Technology	15.8%	15%	105%

Female Enrollment	Spring 2020	Project End Goal	% of Goal Achieved
AS: Energy Management and Controls Technology	4.1%	25%	16%
AS: Computer Information Technology	16.8%	25%	67%
AS: Building Construction Technology	27.8%	25%	111%
AS: Computer Programming and Analysis	20.0%	25%	80%
AS: Electronics Engineering Technology	14.1%	25%	56%
AS: Network Engineering Technology	14.4%	25%	58%
