Below is the chat conversation from EvaluATE’s May 27, 2020 webinar: Adapting Evaluations in the Era of Social Distancing.

Anastasia Councell: You can find links to the blogs and resources Lyssa mentioned here on the webinar’s website: https://www.evalu-ate.org/uncategorized/may2020-additional-resources/

Jeanne Small: Delayed
Banita McCarn: uncertain
Ana Rodríguez Seco: uncertainty
Ayana Perkins: evolving
Tere Romero: challenging
Wendy Lovelady: Overwhelmed
Natascha Pancic: Limited
Alix Slater: Concerned
Katelynn Towne: Concerned
Karen Gareis: Apprehensive
Abigail Burrows: Limited
Dee Sanfilippo: Creative
Audrey Martinez-Gudapakkam: innovative
Jens Astrup: uncertain
Jacqueline Singh: uncertainty
Cristy Hebert: pivoting
Terry Schleder: scared
Conny Graft: Delayed
Ashley Wunder: frustrated
Kodjo Kondo: Delayed
Karen Endebrock: reasonable
Janet Smith: connected
Margarita Moscoso: incomplete
Hannah Pickar: changing
Annette Gardner: Stalled
Benedetta Naglieri: uooooon
Ann Price: Determined
Lisa Unti: evolving
Sue Lin Yee: Innovative
Julie Bokor: struggling
John Ramirez Leiton: Difficult
Paula Astudillo: concerned
David Fosbroke: encouraged
Manorama Khare: Uncertain
Kristie Glatze: nervous
PATRICIA MUELLER: Pivoting
Darlene Breaux: overwhelmed
Rebecca Cors: low quality work
Benedetta Naglieri: unknon
David Larwin: uncertain
GORDON WANZARE: Challenged
Kari Thatcher: WTF?
Beth Watts: test
Gwynne Morrissey: delayed
Rebecca Cors: uncertain for sure
Irene F Goodman: stressful
Jen Gathings: LOL @ Kari Thatcher!
Genevieve Hugenbruch: Haha @Kari, yes absolutely!
Anastasia Councell :You can read more from Tom Schwandt about post-normal evaluation here: https://journals.sagepub.com/doi/abs/10.1177/1356389019855501
Banita McCarn: racial equity
Tina Lorenzi: tighter focus
Rachel Becker-Klein: Innovation
Carolin Purser: lower carbon footprint
Jennifer Bellville: better use of technology
Camille Roundy: more visibility

www.evalu-ate.org
Rebecca Tucker: Increased inclusion
Madhumita Govindu: capacity
Victoria Trinies: new methods
Dee Sanfilippo: creative solutions
Sandy Saperstein: Streamlining evaluations
Madeleine Pope: more equity and accessibility
Jane Cover: Better/more use of technology
Robin Lindquist-Grantz: space to focus
Paul Frankel: Innovation
Ann Gillard: Greater focus on logic models
JENNIFER MCBRIDE: Creative solutions
Moisés Tamayo: innovation
Ruth Lindenfelser: greater focus on TIC
Patricia Montano: equity, learning new tools
Karen Peterman: Time to slow down and complete the full evaluation process
Rebecca Tucker: transparency
Nahima Ahmed: increasing equity
Claire Fontaine: flexibility
Jim Hammerman: Creative approaches
Cristy Hebert: opportunity for changing stakeholder views
Gladis Demarchi: Transformative evaluation.
Jordan Helms: increased creativity and capacity
Rachele Espiritu: more focus on equity
Eka Shapatava: Social justice
Patricia Gonzalez 2:Stakeholder openness
Karen Endebrock: more variety
Uduak Bassey: flexibility
Elaine Craft: fewer or no in-person site visits
Irene Porro: less inequities in the education system
Nadia Nassar: Embracing technology more often
Fran Marshall: better response rates
Kimberly Keller: re-visioning
Caitlyn Jasumback: be more creative in evaluation
Christine Patton: very focused questions and protocols
Marie Lawrence: creating resiliency in programs and evaluators
Sondra LoRe: Interesting to learn how programs adapt. Especially education programs
Adriana Rico: innovation
GORDON WANZARE: innovation
Gabriela Garcia: thinking more creatively about my evaluation
Tere Romero: evidence is really important
Deanna Khemani: I hope that it brings other voices into the process.
Tanya Lalwani: Adaptive, real world dynamic evaluation
Rachael Mathews: new focus on guests
Anna Stout: more equity and inclusion
Jillian Atherton: innovation
Ana Rodríguez Seco: relying on local capacity
Manjari Wijenaike: increased access and equity
Annette Gardner: greater emphasis on communications
Tammie Crumble: creativity in showing impact
Sarah String: transformation
Janet Smith: Redefining what it means to work on a team
Dorian Wilderman: modernizing
Katherine Boice: assessing new and different outcomes
Jens Astrup: Getting more into online eval
Megan Littrell: learning how to feel connected online
Bernice Campbell PhD: Others will adjust their thought about evaluation
Kristie Glatze: think outside the box more
Karen Gareis: Innovation
Maria Hermenegildo: innovative ways
Nicole Reed: access to new audiences
Catherine Clark: Easier data capture
Lisa Unti: innovation
Tom Grayson: Transformation Evaluation
GORDON WANZARE: empowerment
Peggie Weeks: focus on what students really need
Conny Graft: Learning new approaches
Camille Roundy: more intentional planning and inclusion
Lisa Eastwood: consistency with evaluation
Jodi Fender: new collaboration with different people/groups
Silpa Srinivasulu: Learn new strategies for nontraditional data collection
Patricia Montano: creativity
Lisa Koogle: ability to adapt more quickly
Sue Lin Yee: increase thoughtfulness across stakeholders
Claudia Ocello: Clarity in how to be ethical
Nonkululeko Greenwood: new skills
Amy Soto: innovation
Sally Bond: time for learning
Omoshalewa Bamkole: better quality of life
Diane Smith: more information to inform program development
Irene Porro: this is exciting
Elaine Cummins: intentionality
Felecia Bennett-Clark: national and international opportunities
Wendi Davis: innovation in meeting our community needs
Jennifer Maltby: focus on useful results
Chelsea Austin: More thoughtful planning
Julie Solomon: Greater involvement by diverse stakeholders
Adriana Rico: preparedness
Jacqueline Singh: More online tools to express creativity
Nahima Ahmed: meaningful impact
Audrey Martinez-Gudapakkam: developing more tools that will reach those who are often ignored or left out of traditional evaluation tools
Sabrina De Los Santos: creativity and equity
Terry Schleder: A nation that knows what epidemiology is
Nicole Clark: Focus more on equity, accessibility, and capacity, and ability to pivot
Julie Poncelet: more focus on equity, flexibility and less report writing
Abigail Burrows: better community appreciation for good data and efficiency
Sophie Lyons: Creative technology skills
Patricia Montano: better collaborations
Susan Robinson: NEW PARTICIPATORY METHODS
Donna Ziegenfuss: strategic
Sarah Safley: A well-thought-out approach
Silpa Srinivasulu: Responsive to beneficiaries' needs and time

www.evalu-ate.org
Patricia Montano: flexibility
Rishita Parikh: meaningful impact
Kathryn Owen: creativity definitely. but it's very important to acknowledge the dislocation & stress rather than jumping over it, I think.
Kodjo Kondo: Innovation
Edward Clark: More inclusive of SDOH components
Adrienne Damicis: more accessibility in evaluation methods
Megan Littrell: how to connect with people who do not have consistent online access
Patricia Montano: no commuting
Manjari Wijenaike: new research methodologies
Brian Slattery: honestly not seeing any potential benefits
Jonathan Friedman: collaborative approach
Tammie Crumble: Less punitive and more impact
Najmul Chowdhury: Innovative technology
December Lange Treacy: Re-examination of priorities
Dilhara Muthukuda: skills to become more agile and flexible in our processes
Zack Gross: Greater participation
Sally Bond: time for clients to be more reflective about their work
Ryan Auster: attention to culturally responsive methods
Audrey P: social impact
Jacqueline Singh: more collaborations--better front-end planning
Manorama Khare: flexible and creative evaluation
Marie Hobson: Greater thinking about what we NEED to evaluate not just what we can
PATRICIA MUELLER: Increase in Developmental Eval.
Malia Piazza: greater participation
Syreeta Skelton-Wilson: culturally responsive and centered approaches that are effective for restorative and social justice
Lauren Applebaum: a refocus on social justice goals
Nancy Marker: better communication
Marcia Nation: Being more intentional versus reactive
Melanie Andrews: learning more online evaluation tools
Shezza Shagarabi: evaluation with a look to sustainability (e.g. continued work in virtual environments)
Julie Shattuck: Innovation, flexibility, equity, new domains of study and practice ( climate
adaptation, innovative communication strategies)
Stefania Donini: more qualitative and participatory
Kari Thatcher: ditching funder required outcomes/measures that are irrelevant to our work under normal circumstance, but that now we have a "good reason" to cast aside.
Margo Rowan: back to basics
David Hata: separated but connected
Marcia Nation: Thinking GLOCAL
Anastasia Councell: Want to read more from Rossi, Lipsey, and Freeman? Here is the original source of this quote: https://www.amazon.com/Evaluation-Systematic-Approach-Peter-Rossi/dp/0761908943/ref=sr_1_2?dchild=1&keywords=rossi+evaluation&qid=1590429975&sr=8-2
Anastasia Councell: Check out other options for collaborative white board platforms in this handout: https://www.evalu-ate.org/wp-content/uploads/formidable/9/May-2020-Handout-1.pdf
Rita Grácio: Can we have access to the handout the speaker told about?
  Emma Leeburg: @Rita, you can access the handout and all slides on the webinar page: https://www.evalu-ate.org/webinars/may-2020/
Rita Grácio: thank you @emma!
Conny Graft: What about a top ten list of reasons why clients should not cancel or delay evaluation
Tammie Crumble: What are some new virtual evaluation techniques? Actual resources/information is very difficult to find.
Conny Graft: I have reached out and tried to suggest new ways of doing the evaluations
Luisa Guillemard: we already did everything online, and now we face the problem that students are saturated form working online and probably won't answer surveys
Giovanan Lima: How to reach VIP audience for feedback, such as policy makers and donors?
Luisa Guillemard: *from
Rachel Gooen: We are switching from focus groups to case studies. Any recommended resources for case study research. Best practices, analysis, sampling
Tanya Lalwani: What are suggestions for evaluations that are already underway and the implementation as per ToC is paused.
Fran Marshall: I feel that the scope for questions is much more limited with online events. Maybe limited to 1 or 2 key questions and not much scope for qualitative comments. Is there any way round this?
Audrey Martinez-Gudapakkam: does anyone have creative ideas for collecting data from
students and families besides using zoom?
Lisa Koogle: Our project is multi-faceted and multi-year. Some benchmarks were in achieved prior to Covid, others won't be established until after. How do we go about dealing with the impact on those critical benchmarks that will be used to help determine if we are making progress toward our objectives?
Nahima Ahmed: How do we ensure buy-in from those who have never been part of evaluation?
Paul Frankel: I realize that this is weighing heavily on our collective mind because of recent horrible police violence. Is it really the function of evaluation to improve social justice during this tough time?
Deanna Khemani: We have streamlined surveys to ask the most relevant questions rather than every question.
Felecia Bennett-Clark: We've definitely worked on strategies to shorten team meetings, while there's some learning needed on how to assure that meetings are not dragging.
Becky Skoglund: We are getting feedback from program participants AND staff that they are overwhelmed and frustrated by the frequent surveying. EVERYONE is needing to adjust processes right now, and all organizations seem to be reaching out to get feedback from you. How do we get data without adding to the stress or being dismissed?
Nonkululeko Greenwood: I have an MPA degree in interested in being an evaluator, what advice do you have for newbies like me?
Tanya Lalwani: How do you assess when may be a good time to reinitiate the evaluation.
Kathryn Owen: The # of questions may not be as important as the length of survey. It's whether the content is relevant to their lives right now, I suspect.
Coral Rosado 2: good question
Julie Shattuck: Has NSF produce a specific set of guidelines for ATE evaluators or is the information coming through EvaluATE?
Marcia Nation: Is anyone moving to using paper surveys via US mail? I know some survey science folks have been moving in that direction due to low response rates from online surveys.
Ali Monceaux: Any tips for transitioning from in person interviews and focus groups to recorded remote/online interviews?
Audrey Martinez-Gudapakkam: Literacy is a big problem for many people in the U.S.. Does anyone have creative ideas of collecting data from study participants who have low literacy and limited tech skills?
Cristy Hebert: Yes - Ali's question re: in person to virtual interviews/focus groups
Brian Slattery: To help reduce over-surveying, we should be very open sharing findings with
others (such as in these webinars) and considering NOT surveying people when it's not absolutely necessary
Sally Bond: in addition to keeping surveys short, look for opportunities to embed data collection in program activities (e.g., anonymous polling during an online activity).
Annette Gardner: Any tips for when the client has redeployed its evaluation staff, delaying data collection.
Rishita Parikh: Do you have suggestions for collecting or documenting qualitative community work
Brandie Pugh: Can you send the link to the blog mentioned?
Susi McGhee: Any suggestions for working with populations that have low tech access and tech literacy, like veterans?
Rita Grácio: sorry, whose blog?
JENNIFER MCBRIDE: Link to blog would be great, thanks!
Susi McGhee: That may have *
Oseela Thomas 2: could you repeat name of person who did text survey
Karen Peterman: Sharon O'Conner - look for AEA365 from STEM TIG Week
Chisomo Mchaina: I'm an internal evaluator and I recently put a survey out to our staff members. It was an online survey, but also included a phone/video option for staff who felt they didn't have time to complete the survey or wanted to talk instead
Oseela Thomas 2: thank you!
Mike Lesiecki: that sounds like a good idea
Margarita Moscoso: Thanks
Lori Wingate: Julie Shattuck - Hi! No, NSF has not put out an ATE-specific guide to evaluation,
Marie Hobson: What about data protection for the group messaging platforms?
Reginald Gooden: Thanks
Sally Bond: Lori Wingate - Does NSF still circulate or promote their user-friendly evaluation handbooks?
Gabriela Garcia: What about conducting observations?
Gabriela Garcia: Any tips/ideas for doing observations virtual?
Alix Slater: And you need to be careful of vulnerable adults - many don't pick up because of scams.
Granda Kopytko: drawing survey for young STEM female campers
Morgan Croft-Schornak: send phone interview questions ahead of time so they can think about their responses
Tina Lorenzi: video interviews
Sandy Saperstein: Tip - fewer questions in online focus groups--more time needed for people to mute and unmute
Kelly Hart: We've explored text surveys before but had concerns around FCC requirements
Paul Frankel: Could you be a bit more descriptive about the Delphi technique. I don't get it!
Monica Griffith: we combine video focus groups with some collaborative work on a Google doc or similar platform so that we can switch off between speaking and writing
Janet Smith: Shifted to phone interviews and key is to send reminder day before scheduled interview; some questions open ended, others closed - variety helped
Camellia Sanford-Dolly: There are also programs like Marco Polo that collect asynchronous video
Rita Grácio: yes, please tips on online focus group for people with little tech literacy
Jordan Helms: yes please! more tips on video conference focus groups!
Aliya Pilchen: we've also found success with smaller focus groups so it's easier to hear everyone and manage participation
Marcia Nation: Re: over-surveying. The university client I work with often has asked that students not be surveyed unless necessary for admin purposes
Sandy Saperstein: Used power point to also visually post the focus group questions
Paula Astudillo: Any tips about what to do if you still need data collection with under 18 y/o participants? How do you collect parent consents
Jen Gathings: If you collect data using Facebook or some other platform, you are technically beholden to their terms of conditions
Jillian Atherton: Tips for video conference focus groups. Limit size to < 10 participants; email questions out 24-48hrs in advance
Ashley Wunder: Can you provide some additional resources that explain tips for implementing the Delphi technique?
J F: Delp yep, Jen
Marie Hobson: I have put some tips for online focus groups based on some webinars: https://drive.google.com/file/d/1o9--cxH9-QsCcBHLmCWD4P6G4orJKx2_/view?usp=sharing
Dan Kennedy: Yes, re: Paula ... tips around consent forms

www.evaluate.org
Felecia Bennett-Clark: The asynchronous email approach has been great as a follow up approach as well
LaToya Morgan: Tip: with focus groups, people can join by phone. If you have slides, you have to describe everything.
Caitlyn Jasumback: The video conference focus groups that we have done has been contracted out to another company but because we are doing video conferencing instead of in person it is cheaper so we are able to do more focus groups with the same amount of money
Jens Astrup: Thanks Marie
Burr Tyler: Sort of journaling, but not really: weekly logs online
LaToya Morgan: I address confidentiality at the top of the call and periodically bring it up if new people join.
   Emma Leeburg: Thanks for sharing Marie!
J F: I'd avoid social media since they own the data or, at least have access to it
Margo Rowan: Are there any special or specific methods that have worked best for healthcare providers?
Rachel Gooen: Thank you Marie Hobson
Madeleine Pope: Photovoice (not to be confused with Photovoice which is a npo) is amazing. check out details starting out here: https://en.wikipedia.org/wiki/Photovoice
Morgan Croft-Schornak: Thank you Marie Hobson!
Rita Grácio: @Burr Tyler how to? any site info?
Rita Grácio: thank you Marie!
Rita Grácio: thank you madelaine!
Emma Leeburg: EvaluATE has a brief blog on photovoice if you are interested in a quick overview: https://www.evalu-ate.org/blog/hunter1-jan19/
Claudia Ocello: Idea for a check-in: complete this prompt - The reality is... but imagine...
Jen Gathings: consider reading up on trauma-informed evaluation practices
Julie Solomon: Re healthcare providers, we have been doing focus groups via videoconference with nurses; first one went very smoothly, but we had few participants because providers' schedules were in flux due to the pandemic.
Jordan Helms: Brené Brown has people go around and say one word to describe how they are feeling
Julia Simoes: Jen Gathings do you have any resources on trauma-informed evaluation you could share?
Jen Gathings: Martha Brown's work comes to mind

www.evalu-ate.org
Julia Simoes: Thank you, Jen!
Brian Slattery: just heard in a previous webinar that U of C is offering free training in Trauma Responsive Educational Practices (TREP)
Jen Gathings: AEA recently hosted an e-study on trauma-informed evaluation
Chisomo Mchaina: In some circumstances, I have shortened the survey or data collection, but have found that in some cases people are really happy to talk and go over time even though I'm reminding them of the time
Anastasia Councell: All of the materials for this website, including slides, handouts and recording can be found here: https://www.evalu-ate.org/webinars/may-2020/
Kari Thatcher: Do y'all have recommendations for good places to go for training on website analytics?
Giovanan Lima 2: Great question, @Karl!
Mike Lesiecki: love it
K Stofer: her escape lol
Madeleine Pope: As a new evaluator that was just hired in my dream job eval firm a month before the pandemic, how do I use unemployment time to stay relevant and ready to rejoin the 3-person team when contracts are reactivated?
Ashley Wunder: Kari, the VSA just hosted a webinar on Google Analytics a couple of weeks back. Perhaps they provided the resources on their site?
Emma Leeburg: @Kari Thatcher, I've never been through this, but Google puts out good trainings. Might be worth checking out: https://analytics.google.com/analytics/academy/
Kari Thatcher: @Ashley, who are VSA?
Mindy Gutow: Any insights about funding for evaluation in the Covid time?
Camellia Sanford-Dolly: Visitor Studies Association
Kari Thatcher: (while I google them)
Ashley Wunder: Visitor Studies Association
Rita Grácio: VISITOR STUDIES ASSOCIATION
Kari Thatcher: Thanks!
Julie Shattuck: Will you share the chat info for us to review after the meeting? Lots of great ideas!
Emma Leeburg: @Julie. We can clean the chat data and provide this back out!

www.evalu-ate.org
Jillian Atherton: Anyone strategize alternative data/evaluation plans in the absence of student academic achievement data?

Abigail Burrows: Similar to the low-literacy question, determining the best platform for a multilingual survey... does anyone have a resource or recommendation for translations?

SHANNON SHARP: Does anyone have ideas for how to collect achievement data on K-12 students since end-of-year tests were canceled and course grades are unreliable/inconsistent from teacher to teacher and school to school. A lot of schools didn't collect grades during COVID-19 anyway.

Claudia Ocello: Eriksen Translations eriksen.com

Camellia Sanford-Dolly: VSA has also been doing a weekly Coronavirus Support Group around various eval-related topics, and has one for out-of-work evaluators to share resources.

Audrey Martinez-Gudapakkam: has anyone come across electronic surveys that have audio and visuals?

Tammie Crumble: These are great ideas but is there an organization that has successfully completed site visits online and what was the planning and implementation phase

Abigail Burrows: @Claudia thank you!

Jen Gathings: create your survey in Qualtrics and share the link. The survey can be completed by computer or on a mobile. Qualtrics also allows you to preview how your survey will show up on both

Terry Schleder: Qabigail We have wonderful translators and interpreters here in New Mexico. Drop a line at terry@pivoteval.com

Kate Haley Goldman: Love the Delphi

Nancy Margie: Does anyone have ideas for how to maximize response rates without sending staff into the field to find participants who don't respond to phone calls or emails?

Paul Frankel: Some of the web links in the Chat log are fantastic.

Abigail Burrows: Thank you @Jen and @Terry

Marcia Nation: Audrey, I think Survey Gizmo might have those capacities in one of the paid versions, but not in the free version

Gretchen Biesecker: Audrey, pre COVID, the radio station WERS did an awesome online survey that integrated audio. Most online tools (eg survey monkey) allow for embedding video or audio components.

Jill Edwards: We're really curious about not only literacy levels, but access - poorer folks typically have limited technology and even phone minutes (so many are still stuck with pre-paid phones)

www.evaluate.org
Emma Leeburg: @Paul, we are collecting the weblinks and will be creating a list to share back out.

K Stofer: @audrey qualtrics allows that - I work with a team that just embedded video

Kathryn Owen: There have been some privacy concerns re: videoconference interviews. For instance, the interviewer observing something in the person’s home that they feel a responsibility to report on (e.g., child abuse, animal abuse). Any thoughts on this?

Sondra LoRe: @Shannon Sharp- do they have "entrance goals" for the upcoming school year. Some schools have exit and entrance goals (informal measures or checklists) that are done at the school or district level that can be used as an alternative to "standardized" test scores.

Darlene Breaux: @Shannon Sharp you might want to rely on district data from mid-year assessments. Many districts will use a released state assessment or the district has a local assessment that they conduct usually in January or early February.

Madeleine Pope: Can admin share this chat dialogue (maybe slightly edited!) with some answers to the attendees? So many links and tips I'm not getting!

Kari Thatcher: Photovoice itself is a form of evaluation

Emma Leeburg: @Madeleine- yes, we will be combing through the chat and will address these questions not answered. We will include this in the post webinar materials along with the recording.

Kari Thatcher: There is a TONNE of academic literature on it,

Lisa Unti: We are hearing from some of our partners that student engagement has increased virtually compared to in person programming (health programs). It would be great to capture what is facilitating this. Why do some students engage virtually compared to in person? What are the characteristics of these students and what strategies can we built out for virtual programming and how can we translate back to in person?

Claudia Ocello: Here is an example of Photovoice http://p-casa.org/campaigns/photo-voice-project/

Tom Grayson: Thank you, Lyssa and Mike. Well done, informative and appreciated.

Emma Leeburg: EvaluATE has a brief blog on photovoice if you are interested in a quick overview: https://www.evalu-ate.org/blog/hunter1-jan19/

Rachel Gooen: How about case studies in lieu of focus groups

Marcia Nation: Lisa: Hearing the same thing at my end.

Ermion Pierre: I would appreciate receiving the chat dialogue. There are so many useful resources

Madeleine Pope: PhotoVoice, the NPO, has lots of examples on their website, but heads up that

www.evalu-ate.org
isn't a general overview of all methods of photovoice the methodology!
Madeleine Pope: it's confusing
Milaida Hernandez 2: Thanks so much for all this information. I would love to have the written chat. It has so much ideas!!
Debbie Gowensmith: Training on Photovoice available here: http://www.photovoice worldwide.com/#sthash.mQtjzroR.dpbs
Brian Slattery: others may have seen this already, but there's a useful crowd-sourced document, "Doing Fieldwork in a Pandemic" with lots of ideas https://docs.google.com/document/d/1clGjGABB2h2qbdumuTgffqrHmg9B6P0NvMgVuiHZCJ8/edit
Kari Thatcher: there is a youth engagement group in California that’s used video instead of still images, and influenced policy makers to increase sidewalks and bike paths
SHANNON SHARP: @Darlene Breaux we considered that but the school system we're working with right now doesn't use benchmarking (throughout the year) testing. Also, we have projects with multiple districts within the state and we need something they ALL use.
Cristy Hebert: what's a great platform for photovoice, where folks can just reply with their upload and short answer?
Abigail Burrows: @Kari I would love a link to that study!!
Tere Romero: How do you corroborate interventions in field when you cannot do direct observation?
Jen Gathings: @Cristy, we used google for PV in the past
Jen Gathings: upload to G drive
Cristy Hebert: Thanks Jen!
Michael Mason: Contact tracing as a tool for combatting COVID-10. Am I paranoid to think that this type of information gathering might 'cross the line' of ethical practice and a danger to individual rights
Kari Thatcher: https://www.ccphealth.org/
Abigail Burrows: Thank you!
Darlene Breaux: @Shannon Sharp, oh well that makes sense. What state are you in? Check to see if your districts use MAPS testing.
Kimberly Keller: can use closed Facebook groups for photovoice. social platform allows discussion among participants across photos. Depends on the purpose/goals of the project if this would be an appropriate venue
Emma Leeburg: @cristy, we also used Google Drive for photo voice as well. Then we used

www.evalu-ate.org
AdobeSpark to share out our results.

Emma Leeburg: Article on using Adobe Spark for PhotoVoice reporting: [https://www.evalu-ate.org/blog/hunter-mar19/](https://www.evalu-ate.org/blog/hunter-mar19/)

Kari Thatcher: @Abigail, the group in California that I mention, along with other youth lead CPBR work is highlighted here:

Kari Thatcher: xv

Kari Thatcher: [https://apha.confex.com/apha/143am/webprogram/Session44025.html](https://apha.confex.com/apha/143am/webprogram/Session44025.html)

SHANNON SHARP: @Darlene some use MAPS but not all. I'm in Mississippi. We don't have a mandate to benchmark like some states do.

Emma Leeburg: Thanks Kari!

Peggie Weeks: Great webinar! Thank you Lyssa. Thank you, Mike.

Alina Taniuchi: Compilation of resources for evaluators (and evaluators as people!): [https://expandingthebench.org/covid-19-resources/](https://expandingthebench.org/covid-19-resources/)

Gabriela Garcia: Yes! Site visits, that was one of my questions

Abigail Burrows: Many Thanks @Kari

Jen Gathings: we're considering a move to virtual site visits for a project

Margarita Moscoso: recomendation for virtual inform consent for parents

Nicky Boyd: great webinar thanks from Nicky in London UK

Darlene Breaux: @Shannon Sharp. Ok, well I'm sorry, I'm all out of ideas right now.

Kari Thatcher: Of course! It was the "Creating Healthy Transportation Policy through Youth-Led Video Voice Advocacy" one

SHANNON SHARP:@Darlene. I appreciate your help! It's going to be a problem for many, I think.

Susan Robinson: Experience in mobile apps that combine closed-ended and open-ended data such as video information for observational studies, data could be anonymized through applying filters to mask faces, etc.

Julie Shattuck: We may see some form of relaxing policies by fall. We may need to wear masks along with our participants and distance, but it could be coming down the pike...

Paula Astudillo: @Margarita following the question of remote parent consent?

Silpa Srinivasulu: Do you have any strategies for systematically recording the process evaluation idea you mentioned in the beginning of the webinar? -- checking in with the project & evaluation team to document how COVID has affected a program and using our logic models as a guide. How do we systematically document those kinds of conversations?

Anastasia Councell: All of the materials for this website, including slides, handouts and
recording can be found here: https://www.evalu-ate.org/webinars/may-2020/

Stefania Donini: Very inspiring webinar - thank you very much (from Glasgow)

JENNIFER MCBRIDE: Fantastic webinar!

Kate Haley Goldman: Thank you!

Audrey Martinez-Gudapakkam: any ideas for protecting privacy when using apps such as whatsapp for data collection?

Gretchen Biesecker: Excellent webinar and resources. Thank you!

Anastasia Councell: Not part of the EvaluATE Slack network yet? Sign up here: https://www.evalu-ate.org/network/evaluate-slack-community/

Sue Lin Yee: Great webinar and resources, thank you!

Maureen Pettitt: Thank you!

Tere Romero: Great webinar!

Madeleine Pope: this was SO HELPFUL thank you!

Kerry DiGiacomo: thank you for providing summary of chat!

Sarah Dunifon: Thank you!

Karen Peterman: Thanks to the ATE team for being such a great resource for the evaluation community - love seeing how many people tuned in today!

Paula Astudillo: Thank you! Very inspiring and helpful webinar!

John Ramirez Leiton: Thanks!

Claire Fontaine: Thank you very much! Very helpful webinar

Anastasia Councell :Sign up for this great webinar hosted by AACC here: https://ate.adobeconnect.com/e8666vxe8zh2/event/registration.html

David Larwin: thank you!

Julie Poncelet: Thank you!

Jim Hammerman: Thanks. This is a great community

Uduak Bassey: thank you!

Stephanie Chasteen: These webinars are always SO informative and well-prepared.

Zack Gross: Thanks very much!

Lisa Unti: Thank you so much

Sondra LoRe: Thank you! This was a wonderful webinar!

Fran Marshall: Thank you from Sheffield, UK

Mark Mulobi: Just amaizng thank you

Marcia Nation: Thanks!

Gladis Demarchi: Excellent webinar!

www.evalu-ate.org
Ruthie Chang: Thank you!
Susan Robinson: Great webinar, thanks
Kodjo Kondo: Thank you for the interesting webinar
Gabriela Garcia: Thank you!
Silpa Srinivasulu: Excellent webinar! You are great facilitators!
Michael Mason: Thank you for another great presentation
Laura Waldman: thank you!
Nicole Clark: Can you share the Slack channel?
Julie Solomon: Incredibly well-organized and informative webinar, thank you!
Giovanan Lima 2: Thanks everyone!
Nancy Marker: Thank you and great ideas and sharing by all
Tammie Crumble: Thank you
Margarita Moscoso: THANKS
Beth Twiss Houting: Thanks. Great resources from all.
Sarah Kuester: Wonderful resources and webinar. :)
Luisa Guillemard: As always, great seminar and useful information!
UTTAM UPRETY: Great webinar. Enjoy it. Thank you.
Janet Smith: Thanks for your preparation - great info!
Anastasia Councell: You can find out more about this great opportunity on our
website: https://www.evalu-ate.org/ate-coaching/
Mindy Gutow: what is the slack channel?
Audrey Martinez-Gudapakkam: thanks so much!
Anastasia Councell: If the survey doesn’t automatically pop up, you can take it
here: https://wmich.co1.qualtrics.com/jfe/form/SV_exKsDpCo79efUVL
Lisa Koogle: what channel is she mentioning?
Mindy Gutow: what is the address of the slack channel
Emma Leeburg: Not part of the EvaluATE Slack network yet? Sign up here: https://www.evalu-ate.org/network/evaluate-slack-community/
Mindy Gutow: thx
Sabrina De Los Santos: thank you!
